

LUISS - Guido Carli Accessibility Statement Summer School 2026

Accessibility statement prepared on 23/09/2026 based on a third-party assessment.

LuiSS Guido Carli (the “Company”) is committed to making its website accessible, in accordance with Law no. 4 of 9 January 2004 and Legislative Decree 82/2022.

This accessibility statement applies to the website **LUISS - Summer School 2026**, available at <https://summerschool.luiss.it/>

General Information

Subject of the assessment: **Website**

Website name: **LUISS - Summer School 2026**

Technical specifications used: **WCAG 2.1**

Compliance status: **Partially compliant**

This website is partially compliant with the requirements set out in Appendix A of the UNI CEI EN 301 549 standard due to the non-compliance cases listed below. The contents listed below are not accessible due to **non-compliance with Law no. 4 of 9 January 2004**.

Non-accessible content

- Some non-text content is not accompanied by an equivalent text alternative, or the present alternatives do not correctly communicate its meaning; in other cases, decorative elements have text alternatives;
- Information, structure, and relationships are not always programmatically determinable, making the page organization less understandable to assistive technologies;
- The purpose of some input fields cannot be programmatically determined, preventing assistive technologies or auto-fill tools from correctly identifying their function;
- Some text and text components have insufficient contrast against the background, making them difficult to perceive;
- At high magnification levels or on small viewports, some content is not reflowed correctly, causing loss of information and requiring horizontal scrolling;
- Some user interface components and graphical indicators have insufficient contrast against adjacent colors, making them difficult to identify;

- Some functionalities or interactive components are not fully operable using a keyboard;
- There are no mechanisms available to bypass repeated blocks of content and quickly reach the main content;
- The order in which elements receive focus does not always follow a sequence consistent with the structure and meaning of the content;
- The purpose of some links cannot be sufficiently understood from the link text alone or from its programmatically determined context;
- Multiple ways are not available to locate and reach web pages or features within the service;
- Some headings and labels do not sufficiently describe the topic or purpose of the associated content or component;
- The focus indicator is not always visible or sufficiently distinguishable during keyboard navigation;
- The accessible name of some interactive components does not consistently contain the visible text of the label, making interaction via assistive technologies less predictable;
- Input errors are not always clearly identified and associated with the affected elements, making it difficult for users to understand which information needs to be corrected;
- There are syntax errors in the HTML code, which may hinder interpretation by assistive technologies;
- The name, role, and state of some interface components cannot always be correctly determined programmatically, compromising their use via assistive technologies.

Feedback and Contact Information

Users may report any accessibility issues at any time by writing directly to the following e-mail address: accessibilita@luiss.it

- To help us resolve the issue as quickly as possible, please include the following information in your e-mail:
- Full name;
- The URL of the webpage or the specific section of the website/app being reported;
- A clear and concise description of the issue encountered;
- Tools used (operating system, browser, assistive technologies).

You can review our Privacy Policy at the following link: <https://www.luiss.it/it/privacy-policy>

Enforcement procedure

In the event of an unsatisfactory response or failure to receive a response within thirty days of your notification or request, you may submit a formal report to the Agency for Digital Italy (AGID) using the following link: <https://www.agid.gov.it/>
